Introduction

1. In response to the note of the Secretary-General of UNCTAD dated 23 November 1973 requesting preference-giving countries to provide information on the operation of their respective schemes under the generalized system of preferences, the Government of Switzerland has provided information on various categories of imports of products covered by its scheme for the period 1988 to 1991. 1/ A summary of this information is given below and the data on Swiss imports from beneficiaries is presented in table 1 of the annex. Table 2 of the annex gives the value of imports in 1991 of major products covered by the scheme from the world and the total of preferential imports from all beneficiaries as well as from major beneficiary suppliers of these products. 2/

I. Imports by Switzerland from beneficiary suppliers in 1988, 1989, 1990, 1991

2. Table 1 of the annex shows, for all and individual groups of beneficiaries (Part A) as well as for each individual beneficiary (Part B), total, MFN dutiable, covered and preferential imports of products falling within HS chapters 1-24, 25-97 and 1-97.

3. Switzerland recorded imports in 1988, 1989, 1990 and 1991, respectively from 130, 128 and 129 (for the last two years, respectively) countries or territories recognized as beneficiaries of its scheme. Of these beneficiaries, 127 in 1988, 126 in 1989 and 1990, respectively, and 127 in 1991 supplied goods covered by the scheme, of which 105 in 1988, 100 in 1989, 110 in 1990 and 107 in 1991 received preferential treatment. Swiss imports from beneficiaries in 1991 amounted to $5,542 million of which $5,339 million or 96.3 per cent were MFN dutiable products. Some $3,800 million or 71.2 per cent of these dutiable products were covered by the scheme, while 38.5 per cent of covered products ($1,524 million) actually received preferential treatment. Similarly, imports which were granted GSP treatment in 1988 accounted for 35.8 per cent ($981 million) of those covered by the scheme ($2,737 million), while the covered imports amounted to 67.3 per cent of dutiable imports ($4,069 million). Between 1988 and 1991, the annual average rate of preferential imports increased by 15.8 per cent, while that of covered imports increased by 11.5 per cent, dutiable imports by 9.5 per cent and all imports by 9.4 per cent. These rates denote, on the one hand, the good results of efforts undertaken by beneficiaries in export product diversification and a better utiiization by them of the Swiss GSP scheme and, on the other hand, despite the high rate of product coverage since the inception of the Swiss scheme, a slight increase in that rate.

4. The overall rate of utilization of the Swiss scheme as measured by the ratio of imports covered by the scheme, was 35.8 per cent in 1988, 37.0 per cent in 1989, 37.8 per cent in 1990 and 40.1 per cent in 1991. The utilization rates of agricultural products and industrial products amounted, respectively, to: 74.6 per cent and 33.9 per cent in 1988; 83 per cent and 33.9 per cent in 1989; 87.1 per cent and 34.3 per cent in 1990; and 88.3 per cent and 36.4 per cent in 1991. However, as may be seen from table 1B of the annex, these utilization rates vary widely from beneficiary to beneficiary. In this context, because of the small preferential margins between the low

rates of MFN duties applied and the zero preferential tariff, inter alia, for products such as precious and semi-precious stones, articles of jewellery and cotton not carded or combed, 3/ it appears that the major exporters of these articles did not avail themselves of the benefit of the preferences under the Swiss scheme. If the amount of these imports were added to the preferential imports, the overall rate of utilization under the Swiss scheme would have been 81.1 per cent in 1991.

5. Thirteen major suppliers accounted for $2,242 million or 81.9 per cent of all imports covered by the Swiss scheme in 1988 and for $782 million or 79.7 per cent of the total value of imports which were actually given preferences. In 1989, 13 major suppliers accounted for $2,586 million or 81.1 per cent of all imports covered by the scheme and for $910 million or 77.1 per cent of the total value of imports which actually obtained preferences. In 1990, 12 major suppliers accounted for $3,296 million or 80.4 per cent of all imports covered by the scheme and for $1,169 million or 75.4 per cent of the total value of imports which actually obtained preferences. Likewise in 1991, 15 major beneficiaries supplied $3,064 million or 81.1 per cent of all covered imports. Of this $1,180 million or 77.4 per cent comprised all imports which actually obtained preferences. By order of the relative value of covered imports into Switzerland in 1991, the major suppliers were: Bermuda, Hong Kong, Saudi Arabia, Thailand, China, Republic of Korea, India, Israel, Brazil, former Yugoslavia, Singapore, Turkey, Argentina, Lebanon and Malaysia.

6. Dutiable Swiss imports from 37 supplying least developed countries (LDCs) in 1988, 36 in 1989 and 1990, respectively, and 35 in 1991 attained a value of $65 million, $62 million, $57 million and $51 million, respectively, of which $32 million or 49.2 per cent, $34 million or 54.8 per cent, $50 million or 87.7 per cent and $46 million or 90.2 per cent were covered by the scheme. Of these covered imports, 31 per cent or $18 million, 31.4 per cent or $27 million, 39.6 per cent or $40 million and 33.7 per cent or $39 million received preferential treatment in 1988, 1989, 1990 and 1991, respectively. Twenty seven of these LDCs received preferential treatment in 1988, 34 in 1989, 27 in 1990 and 29 in 1991. The most important LDCs suppliers in 1991 4/ of preferential imports were by order of the relative value of received imports into Switzerland: Nepal ($15,138 thousand), Togo ($3,304 thousand), Bangladesh ($2,125 thousand), Aghanistan ($2,060 thousand), Ethiopia ($1,765 thousand), Burundi ($886 thousand), Haiti ($545 thousand); Uganda ($512 thousand); Malawi ($459 thousand); Tanzania ($433 thousand), Central African Republic ($372 thousand), and Guinea ($257 thousand). The four first major LDC suppliers alone accounted for $22,627 thousand or 79.4 per cent of total preferential imports from all LDCs.

7. Swiss imports of products covered by its scheme from Mediterranean (MED) and ACP countries which enjoy special preferences in the EEC market amounted to $383 million and $117 million respectively, in 1991. The value of these imports from the two sources which received GSP treatment in 1991 amounted to $183 million and $39 million, respectively. Thus in 1991 these two groups of countries supplied 13.2 per cent of products eligible for preferential treatment under the scheme and 14.6 per cent of total imports which actually received preferential treatment.

II. Imports of major products under the Swiss scheme in 1991 and major suppliers

8. Table 2 of the annex shows the value of Swiss imports in 1991 and major products covered by its scheme from the world, all beneficiary suppliers and individual major suppliers, as well as the value of imports of these products which effectively received preferential treatment. Imports from beneficiaries of major products, defined at the Swiss tariff line level, covered by the scheme in 1991, were recorded under 139 tariff lines of which 15 items were agricultural products and 127 items were industrial products. Imports of these major products from beneficiaries amounted to $3,043 million or 80.1 per cent of the total imports covered ($3,800 million) in 1991. Of these imports, 32.9 per cent received preferential treatment. 5/

9. Some 57 major products, the preferential imports of which were valued at $5 million or more, accounted for 80.4 per cent of the preferential imports of the 139 major products in 1991. The most important among these products in 1991 were (value of preferential imports expressed in millions of dollars): Swiss tariff line 09.01.1100, Coffee, not roasted ($108.3); 42.03.1000, Articles of apparel of leather ($70.5); 57.01.1100, Carpets ($57.5); 61.10.2000, Jerseys, pullovers, etc., of cotton $47.9); 42.02.9200, Cases and containers, nes ($34.6); 71.02.3900, Diamonds non-industrial nes ($29.8); 16.04.1490, Prepared or preserved tuna ($21.8); 29.37.9900, Other hormones and derivatives ($19.8); 71.13.1400, Articles of jewellery ($19.8); 43.03.1000, Articles of apparel and clothing of furskin ($19); 85.28.1090, Television receivers ($18.2); 95.03.4100, Stuffed toys representing animal ($15.6); 85.27.1100, Radio (receivers) ($14.1); 91.11.2000, Watch cases of base metal ($11.9); 29.18.2900, Carboxylic acids ($11.8); 07.12.3000, Dried mushrooms and truffles ($11.5); 63.02.2100, Printed bed-linen of cotton ($11.4); 71.03.9100, Rubies, sapphires ($11.3); 84.71.9100, Digital process units ($11.2); 62.03.4200, Men's or boys' trousers, breeches ...($10.8).

Notes

1/ The detailed information has been supplied on computer tapes.

2/ For information for 1977, 1978, 1979, 1980, 1982, 1983, 1984, 1985, 1986, and 1987, see respectively TD/B/C.5/PREF/1, 2, 13, 22, 27 and 32.

3/ Products falling essentially under Swiss tariff lines 52.01.0090; 71.02.3100; 71.02.3900; 71.03.1000; 71.03.9100; 71.12.1000; 71.13.1900.

4/ In the present analysis only actual beneficiary LDCs (up to 1991) have been taken into account. Therefore, imports from Madagascar, Zambia and Zaire are not taken into account in imports from LDCs into Switzerland.

5/ For the apparent low rate of utilization, see paragraph 4.
